Lethbridge Defeated By Score 8-2

Fastest Game of Season on Blairmore's Arena.

On Tuesday night hockey fans had the pleasure of fanning the best hockey game ever witnessed on Pass ice, when Blairmore's in their third game of the League series defeated the Lethbridge Giants to the tune of 8 to 2.

The first two twenty-minute periods of exceptionally high class play, was witnessed, and at the end of both periods the score stood a tie. In the third and final Lethbridge seemed to have lost all courage and allowed a mere walkover for the locals.

Blairmore's goal after nine minutes of play. This naturally stirred the indignation of the locals, so they followed up nine minutes later with another scored by Walter Scott. It was rather a shame, too, because dear little Podger kicked it in himself.

Barbour was given the privilege of decorating the fence for a couple of minutes for handling the puck, and although for the two minutes Blairmore had only four men on the ice apart from the goalkeeper, Lethbridge failed to get through.

Ten minutes were again allowed the boys to recuperate for the final heat, which proved to be a walkover for Blairmore. Six goals were scored in quick succession by Graham, Scott, Vejpava, Turner and Barbour. The six were recorded in just ten minutes and were shot from all angles to dear little Podger, who apparently got disgusted with the whole thing.

Blairmore outskated Lethbridge in the last period, although Lethbridge made a final spurt of five minutes to no avail.

The defence of Barbour and Turner was impenetrable, the book-checking of Barbour being in itself wonderful. Tony Vejpava, on the Blairmore left wing, played a remarkable game. The game throughout was considered by the fans to be fast and clean.

Special mention must be made of the referee and judge of play for the manner in which they handled the game.

The game was witnessed by about 550 people, from all parts of the district, and both teams shared in the rooting from the fans. The ice was excellent and weather conditions lent all that could be desired for this winter sport.

Friday night the Lethbridge team will try their luck with Coleman on Coleman ice and this game will create interest.

Pincher Creek will play at Blairmore on Tuesday next.

Coleman Loses to Taber

Coleman played hockey at Taber on Tuesday night and lost in a hard-fought game by a score of 3 to 1.

NOTICE

Town of Blairmore Bye-Election

PUBLIC NOTICE is hereby given that a meeting of the ratepayers will be held at the town hall, Blairmore, on Tuesday, the 18th day of January, 1921, from 11.30 in the forenoon until 12 o'clock noon, for the purpose of nominating candidates for Councillor to fill the unexpired term of L. Dutil, resigned.

Education in Western Canada

Among the administrative duties which come solely within the jurisdiction of Provincial Legislatures and Governments possibly none are more important and vital to the true welfare and strength of the country than those which have to do with the schools and educational policy. While the Dominion Parliament has the right, in certain contingencies, to override Provincial school legislation affecting minorities, it has nothing whatever to do with general educational policy and administration. The strength or weakness, the success or failure, of the schools of Canada is, therefore, a direct responsibility of the Provinces.

From their inception, the Western Provinces of Canada have placed education, and the creation and development of a strong elementary system of schools, first and foremost in their legislative and administrative programmes. The people have demanded this, and the Governments have responded to that demand; Governments have in fact led the way in the introduction of reforms and the adoption of the most advanced methods. The result is that today in almost every city, town, village and rural district, the school is the object of pride on the part of all people and is accorded their enthusiastic support. The school is the one institution for which large sums of money are ungrudgingly voted and in support of which taxes are cheerfully levied.

It is recognized, too, that the elementary school of today is something more than a means of teaching children to read, write and count correctly. It is realized that the school is the training ground of citizenship, and that the right type of citizen is the man or woman who possesses not only rudimentary knowledge of the three R's, but who is physically fit to endure the struggles and hardships of life, whose powers of observation, thought, initiative and general intelligence are developed, and whose educational training is of a character to make them fully efficient in their chosen occupation or calling.

Hence, the work of a Provincial Department of Education consists of much more than the organization of school districts, the training of teachers, and the payment of certain grants in support of schools. Realizing that a child cannot pursue its studies to the best advantage and concentrate on its school work if it is suffering from some physical defect or disease, Western Governments have created a branch devoted to school hygiene, and staffs of school nurses are employed who visit the schools, report on the system of lighting and ventilation, and whether the seating is conducive to health and the development of strong, upright bodies. These nurses examine the children's eyes, teeth, throats, etc., and report defects to the parents. Frequently they visit the homes of defective children and discuss their needs with the parents. In this way defects are found and generally remedied at an early stage, and the child is not handicapped, but which were the cause of indolence, lack of application, and backwardness in study. Cleanly and healthful habits are taught and their importance emphasized.

Boys' and girls' clubs are organized, school fairs held, school gardens and plots arranged, and the rudiments of agriculture taught in rural schools which are attended by the sons and daughters of our Western farmers, while manual and technical training and night schools are provided in urban centres. The girls are given lessons in domestic science and thus equipped for the discharge of home duties.

Free text books are supplied, an ever-increasing army of inspectors is employed with a view to a steady increase in the efficiency in teaching methods, the standard of qualifications demanded of teachers is being raised year by year, compulsory school attendance laws administered by school attendance officers are enforced with a view to seeing that every boy and girl obtains the benefits of elementary education, and special efforts are put forth to develop schools among the many communities of non-English birth in this Western country in order that the younger generation may become imbued with Canadian ideals of citizenship.

These policies, so essential to the future, not only of the children, but of the State itself—because the stability of a State is dependent upon the standard of its citizenship—costs an immense amount of money, especially in these newer Provinces where the distances are great, population yet small and widely scattered, and pioneer conditions in many respects still prevail. It is not surprising, therefore, that in Saskatchewan last year the largest single item of expenditure by the Provincial Government was for education. Education called for the expenditure by the Government of about one-quarter of the entire Provincial revenue, and what is true of Saskatchewan is approximately true of the other Prairie Provinces.

It will be seen, therefore, that notwithstanding the fact that the Western Provinces do not enjoy the wealth and resources of the Eastern Provinces, and are laboring under pioneer conditions which have passed in the older portions of the Dominion, Legislatures and Governments here are discharging the fundamental duty of government in providing for an intelligent, trained citizenship, thus laying the foundations for a contented, prosperous and efficient State in the years to come.

A D'voice Granted

After many years of patient suffering you can be divorced from pain by applying Putnam's Corn Extractor, which acts in 24 hours without pain. Refuse a substitute because "Putnam's" is the remedy that's safe and reliable, 25c per bottle at all dealers.

McGill Subscriptions

The executive of the McGill centenary campaign announce that the total returns to the end of the year amounted to \$6,390,640, and that every day up to date subscriptions continued to come into headquarters.

Proper Food for the Child

BY LORETTO C. LYNCH
An Acknowledged Expert in
All Matters Pertaining to
Household Management.

One of the largest cities in the United States asked me to lend my assistance in combating the appalling amount of malnutrition which the Department of Health doctors found among its children. And, strange to say, the malnutrition was by no means limited to the children of poor folk. Some of the children came of well-to-do families. In only a small minority of cases was lack of money the cause. Then what was the matter?

I invited the mothers of one hundred of these children to a little informal gathering. At first they let me do most of the talking, let me tell them that a diet of white bread, potatoes and meat and practically nothing else might cause malnutrition. They allowed me to become so enthusiastic that I finally gave out printed slips on the suggested diet to combat malnutrition.

The best food workers believe that a diet of milk—lots of it—cereals and cereals, fruits and vegetables, fats and foods from the egg-fish, meat-poor group and a very little sugar at the end of a meal, other conditions being favorable, is the ideal diet for the proper growth and development of a child.

Up to this point the women had been shy. But now a courageous soul broke silence.

"It is all very well to say the children should eat this and that and that," she said, pointing to the slip with her toll-worn finger, "but my boy—the one the doctor says is undernourished, won't eat cereal and he won't drink milk and he don't like eggs and hates vegetables and I have to beg with him to eat an egg. And when he won't eat these things what can I do?"

Suppose your child will not take milk. Perhaps if you make it into cocoa he will take it. Or, perhaps, he will take it if it is made into a chocolate pudding or a custard pudding. You might put a pinch of baking soda into the tomato soup and then combine it with equal parts of milk and serve it as cream of tomato soup.

If you look through a cook-book you will find scores of dishes calling for milk. While pills are not usually suggested for children, nevertheless in cocoon custard pie there is so little crust and so much milk and egg, that we might occasionally put it into an older child's diet.

Minard's Liniment For Colds, Etc.

Long Flight of Seaplane

U.S. Naval Air Station Reports Longest Flight in History.

Establishing a new United States non-stop duration record for pilot and five passengers for seaplanes, the United States naval seaplane, NC-5, flew from San Diego, Cal., to Magdalena Bay, Lower California, in the remarkable time of 9 hours and 15 minutes. The big triplane-topped plane covered the 702 miles between Point Loma and Magdalena Bay at an average speed of 72 miles an hour. The naval air station here reported that the flight of the NC-5 was the longest in the history of naval aviation.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Eclectic Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

School Hygiene.

With the appointment of seven new school nurses, school hygiene work in Saskatchewan is making progress during 1919. A total of 548 schools were visited by these nurses, and 14,926 pupils inspected. Surprisingly few children were found free from any defect. The homes of children were visited in 325 cases. Sixty meetings were addressed and sixty school fairs attended. A course in health education was given at the Summer School for Teachers at the University.

Prizes for prompt and uncomplicated payment of taxes are offered by the Japanese Government, and range from fifty cents to twenty-five dollars.

Had Them On.

Judge—Where were your supporters in this crisis?
Pilot—I had them on, Judge.

To Conserve Radium

Want to Employ Precious Substance to Fight Disease Only.

So great is the demand for radium in the treatment of cancer and various malignant diseases that a movement is now on foot to withdraw it as much as possible from the manufacture of luminous dials and other industrial purposes, so that it may be employed entirely for the treatment of human ills.

The substance advocated as a substitute is meso-thorium, a by-product obtained in the manufacture of thorium, a mineral which is extensively employed in the manufacture of gas mantles. The ores from which thorium is made are imported largely from Brazil and India, although there is a limited supply available in the United States. Meso-thorium can be seen at night, and therefore is an ingredient of the paint which is used in the marking of clock faces, watch dials and range finders which can be read in the dark.

Union Hospitals.

The organization of union hospital districts is proceeding steadily throughout the province of Saskatchewan at many widely separated points. During recent weeks new districts have been successfully formed at Shaunavon, Indian Head and Melfort. In addition to this, the boundaries of several districts, already formed, have been altered in various ways, according to the provisions for this purpose embodied in the act.

DELICATE GIRLS

MADE STRONG

Rich, Red Blood Made to Keep Up Their Vitality.

If growing girls are to become well developed, healthy women their blood supply must be carefully watched. Mothers should not ignore their unsettled moods or the various troubles that tell of approaching nervousness. A lack of appetite, tired, aching limbs tend to hinder progress. To save the weak, thin-blooded sufferer she must have rich, red blood and nothing means it so much as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and exercise, causing the weary body and limbs, thus promptly restoring health and strength and transforming anemic girls into women, bright, cheerful happy people. Among the thousands who have obtained new vigor and strength from the use of Dr. Williams' Pink Pills is Miss Violet Booth, Glenora, Ont., who says: "For a long time I was in a badly run-down condition. I was pale, breathless at the least exertion, and could hardly do any household work. I stopped to rest I often had severe headaches, and my appetite was poor and fickle, and I would get up in the morning without feeling the least bit rested. I had tried several medicines, but did not get up from anything until I began the use of Dr. Williams' Pink Pills. When I had taken two boxes I could exercise and improve, and after six boxes I found my health fully restored. I feel altogether different since I used the pills that I strongly advise them for all weak, run-down people."

If you are weak or ailing in any way avail yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville.

Ontario Planning For Rural Credits.

"As soon as it can be brought about Ontario will have a system of rural credits similar to the system in Quebec and in the western provinces, by which a man can raise money on his business standing and his character," Hon. Manning Doherty, minister of agriculture for Ontario, told Peel County U.F.O., in an address. "There has never been one dollar of loss from rural credits," the minister declared.

In the Black Forest, Christmas or Yule is known as "Log Day."

Each man and his sons cut down their own "log," and the customary greeting is "A merry log day!"

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Expeller to drive out the parasites.

German U-Boat Sunk.

Twenty-four-inch shells fired by the U.S. destroyer Wickes at ranges varying from 3,500 to 2,500 yards were required to sink the U-boat 88, a former German high seas raider, six miles off the San Pedro breakwater, in recent gunnery practice.

—W. N. U. 1350

Oracle Predicts

Trouble in 1921

Astrologer Forecasts Events After Long Study of the Stars.

Serious political and labor troubles, with President Wilson's life endangered, are part of America's fortune for 1921, according to Madame De Tarnowsky of Paris.

Madame De Tarnowsky, successor to the president Madame De Thebes, after long study of the stars, predicted what is in store for the world next year. The fates have marked bitter medicine for most of the nations, she said. She found these things in sight.

England—Serious economic and social difficulties.

Belgium—International worries.

Italy—A revolutionary attempt.

Spain—A most troubled industrial situation.

Portugal—A revolution.

Turkey—Disembodiment.

Russia—Increased disorder with the present regime imperilled and Lenin's life endangered.

France—Further divisions of the Socialist party, difficulties over labor and religious questions. In the spring will come an improvement of financial and commercial conditions and a decrease in the number of divorces. A change of government will come during the summer and possibly a rupture of the alliances now existing, which will seriously embarrass the country for a time. In the fall there will be grave financial difficulties with a menace of bankruptcy and a statesman's life in danger.

Minard's Liniment For Distemper.

Tiny Autos Popular in Berlin.

Automobiles not much larger than baby carriages are proving exceedingly popular in Berlin, Germany. The car is just large enough to hold one person comfortably, but a trailer may be added to carry luggage or another person. They are driven by an electric battery and will run about four hours without recharging. Stations have been established all over the city to recharge batteries. When put away for the night the car is stored in a garage about as large as a dog kennel.

It is usually safe to say that when a child is pale, sickly, nervous and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Would Not Sit For Portrait

Canadian Is First to Paint Picture of Japan's Emperor.

J. W. L. Forster, a Canadian artist, was the first person to paint portraits of Their Majesties the Emperor and Empress of Japan while in Tokio as a delegate to the World's Sunday School convention. In fact they were the first ever painted of any of the reigning heads of that country.

Neither the Emperor or Empress sat for their portraits, being contrary to the custom of Japan. Mr. Forster therefore got occasional glimpses of the rulers, by special arrangement and the help he turned out highly pleased them.

Nearly fifty kinds of wine were known to the ancient Romans, including several varieties used for medicinal purposes.

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a weak, sickish, nervous, irregular, palpitation, throbbing, irregular beating, smothering sensation, dizziness, a weak, sinking, all-gone feeling of oppression and anxiety. On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crose, East Clifford, N.S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm and can truthfully say I feel like a different man."

Price 50c a box at all dealers or by mail from The T. Milburn Co., Limited, Toronto, Ont.

The Home Training

If Discipline Is Lacking Youngsters Become a Menace to the Community.

If the discipline of the home is what it should be it will effectively prevent children of high school age from indulging in midnight revelry, perilous joy rides, and other dubious festivities. But if that discipline is lacking up to the high school age these uncontrolled youngsters become a menace to the institution, and to the community of normal, well managed homes which must suffer because of the influence upon decent and self-respecting pupils.—Detroit News.

Geese spend more time on land than any other webfooted fowls.

Quickly Relieves Constipation

Don't let constipation poison your blood and curdle your stomach. If your liver and bowels don't work properly, take CARTER'S LITTLE LIVER PILLS.

CARTER'S LITTLE LIVER PILLS. They are the only pills that will relieve. For dizziness, lack of appetite, headache and bloated skin. Small Pill—Small Dose—Small Price.

ASPIRIN

Only "Bayer" is Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Then you will be following the directions and dosage worked out by physicians during twenty-one years and proved safe by millions. Handle the boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacturing of Monacoeleidester of Salicylicacid.

MOTHER!

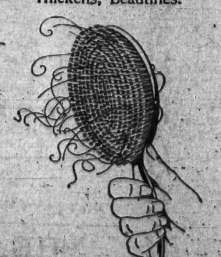

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Childer love its fruit taste. Full directions on each bottle. You must say "California."

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

A few cents buys a "Danderine." After a few applications you cannot find a fallen hair or any dandruff, besides every hair shows new life, brightness, more color and abundance.

ALMIGHTY VOICE

Some New Sidelines on the History of This Famous Indian Outlaw.

By G. O. MAS-ES (Little Clerk).

(Copyrighted)

Some twenty years ago, more or less, our scattered settlement was thrown into a great state of excitement with the shooting of a Northwest Mounted Policeman by an Indian, about fourteen miles west of where Melfort now stands. This was the first mention of Almighty Voice, that famous outlaw, who kept this section of Saskatchewan in an uproar for a couple of years. This young Indian was a Southerner, a Duck Lake band, and noted for his swift running. He was imprisoned at Duck Lake by the Mounted, pending trial on the supposed theft of a steer; broke jail that night, crossed the south branch of the Saskatchewan through drifting ice, secured a pony, cart and single barreled gun from some of his Indian friends and struck north towards Fort la Corne, a young woman accompanying him. The police were on his track next morning, and the sergeant, one Life Guardsman, with a French half-breed interpreter, caught him just about where the village of Beatty now stands. The Indian stopped his pony, got out, knelt down and holding up his right hand, called out, "Sister or I will shoot!" Bravely the old soldier rode the outlaw down, but a single shot struck him dead. And now, with an empty gun and a muzzle-loader at his side, the opportunity for Mr. Meis to capture him. But also he turned tail and rode back as hard as he could pelt to Joe McKay (that famous scout) who was bringing up the rear with a buck-bow, and was some twelve miles back at a settler's house, waiting for their return with their prisoners. If he had been about, Mr. Almighty Voice's career would have ended right there, for the sergeant was greatly beloved by his comrades.

The winter passed and small bodies of police were constantly traversing the district, visiting Indian camps and settler's houses, but without success, though rumors were plentiful as blackberries in regard to his whereabouts. The outlaw had sworn he never would be taken, and that he was innocent of the crime he was imprisoned for. His success in eluding the Mounted Police and also, wounding one or two of the men—his civilian search parties had made him a hero in the eyes of his countrymen, and there was no doubt he constantly received food, clothes and shelter from the various Indian camps, for after all blood is thicker than water.

About a year after his escape, one of Kinist's sons called at my house and hung around Indian fashion until my wife lost patience and said for goodness sake ask what that Indian wants and get rid of him. I was no longer engaged in the fur trade, so my farm and cattle kept me busy, but

I still kept up my interest in the Indians. Coasting Ne-pen-a-quanip out to the barn, we sat down for a good smoke, that grand preliminary to all peace parleys. Finally, I said, "My brother, something is troubling you; tell me all, and relieve your heart." His face lighted up, and laying his hand on my breast he thanked me and said, "Oh, my brother, how good it was that when my father was dying he told me all that for the first and only time in his life he had taken a white man for his son and a brother to his children." I agreed with him, but we were making no progress, though I half suspected his errand.

Ne-pen-a-quanip then proceeded: "This is very bad having soldiers constantly visiting our tents looking for the one who has done wrong. (It is very seldom an Indian will mention names). Do you think it is a good thing having this man wandering from tent to tent?"

"No, I do not," was my reply. "Do you remember how you made all our band promise not to take the law into their own hands when the white men began to come in, and when the lumberman struck me in the face and I ran for my gun with only the thought of revenge in my heart, then my promise to you came right out and I caught a pony and rode right in to see you and you came right out and saw justice was done for the Indian as well as the white?"

"I remember that," my brother. You did well, but don't forget after you had the gun in your hand it was your good wife reminded you of the promise made to me."

"True well this Almighty Voice is our cousin, but he is wrong. He kills an innocent man and wounds two others. Perhaps other Indians will join him and there will be more bloodshed. It would be a good thing to stop him. Is there any reward offered for his capture?"

"Not that I have ever heard of," I answered. "Well, if there is a good reward, and I could catch him." And he then detailed his scheme, which was that I was to start trading again and engage him for my man. Start on the usual trip from Edmonton, gradually draw near his hiding place, where in the dead of night it would be easy to throw a blanket on him, tie him up and hand him over to the police. I cannot say I was much in love with the scheme. Rather, dangerous one, I thought. No doubt the man was desperate. But after the Indian telling me he was getting sympathizers, I finally consented to write the Commissioner of the Mounted Police and report results to him.

(To be continued)

To Equalize Railway Rates

Proposes Conference to Prepare Case for Railway Commission.

Calgary, Alta.—To discuss the equalization of railway rates between the east and the west, and to prepare a case in support of equalization for presentation to the Railway Commission, a conference of representatives of the Boards of Trade of the four western provinces, to be held in Vancouver at the end of January or the beginning of February was proposed in a telegram received by J. H. Hanna, secretary of the Calgary Board of Trade, from the Vancouver Board of Trade.

Woman Speaker in B.C. House.

Victoria.—As a result of a Cabinet meeting here, Mrs. Mary Ellen Smith, who headed the poll in Vancouver at the provincial elections December 1, will be tendered the speakership of the British Columbia legislature. From the time of the announcement of Mrs. Smith's great plurality it was on the carpet that the government proposed to recognize the lady's wide popularity and service in the house.

Toronto Has Crime Epidemic.

Toronto.—"We have an epidemic of housebreaking, burglary and highway robbery," said today the Chief Constable, and "we have to stamp it out." Thereupon he sentenced Frank McCarthy, of Montreal, and Henry Morgan, of this city, to the penitentiary for five years for housebreaking.

Vote \$50,000 for Irish.

New York.—The House Committee for relief in Ireland has voted to send \$50,000 for immediate relief in Belfast and Cork.

Eggs from China

Tons of Chinese Eggs Arrive at Vancouver for Use in Dominion.

Vancouver.—Three days before scheduled owing to heavy gales off the British Columbia coast, the C.P.O.S. steamship Royal Mail Liner, Empress of Russia, has docked here from Oriental ports. The steamer had a full list of passengers. Included in her cargo were 438 tons of Chinese eggs, 289 tons of which are for overland points and 150 tons for local and coastwise. The vessel also has 600 tons of silk and 2,000 tons of general cargo.

Simple Funeral for Von Hollweg.

Berlin.—The burial of the former Imperial Chancellor, Dr. Von Bethmann-Hollweg, took place in the Rustic Cemetery at Hohenzollern. The funeral rites were of the simplest nature and the internment took place in the presence of the villagers, the members of the estate, numerous officials and political associates of the former chancellor.

Plot to Blow Up Tower of London.

London.—A plot to blow up that section of the Tower of London where the crown jewels are stored, with time fuse bomb was discovered, according to the Daily Sketch, during a recent raid of certain Sinn Féin premises.

Refugee Extradition.

The Hague.—The Dutch courts have refused to grant the extradition to Belgium of Professor Dr. Vreese, formerly librarian of Ghent University, and now a political refugee. Professor Dr. Vreese is accused as a leading "activist" in the Flemish separation movement during the war.

No Grain from Russia

Canadian Grain Growers Have Little to Fear From Competition in This Direction.

Ottawa.—That the grain growers of the Dominion have little to fear from the competition of Russia in the immediate future, is indicated in a report received from the office of the Canadian Trade Commissioner at Milan. It appears that Italy and other European countries, much was expected through negotiations with the co-operative institute of Russia, but only one shipload of Russian grain has arrived yet in any Italian port. This amounted to less than four thousand tons and much of the cargo was reported to be in bad condition.

There is also said to be little prospect of grain from Rumania or Jugoslavia finding its way to the European markets in considerable quantities, despite more favorable transportation and exchange rates.

Turks Are Impudent

Turkish Nationalist Leader Sends Ironical Message to Lloyd George.

Angora, Anatolia.—Mustapha Kemal Pasha, the Turkish Nationalist leader, has sent an ironical message to Lloyd George thanking the British Government through the Prime Minister for "assisting" the Nationalists. Great Britain had in fact done so, Mustapha Kemal Pasha pointed out by furnishing the Armenians with 40,000 rifles and considerable war materials which the Armenians, he says, surrendered to the Nationalists under the peace treaty they had concluded. The "National" Assembly here has created Mustapha Kemal a field marshal of the Turkish army, in "recognition of his services."

Thinks Situation is Hopeless

Von Tiritz is Very Pessimistic Over Germany's Future.

Munich.—Admiral Von Tiritz, who was the German naval secretary for the first two years of the war, does not believe "a kindly fate" will give Germany 200 years to revive, as after the 30 years war, because of surrounding hostile nations.

He makes this known in an article written for a Southern German publication. He says Germany's situation seems hopeless. The admiral writes: "It must be said that eighty million Germans in Middle Europe can be as invincible as ever if they hang together and are willing to sacrifice for national unity. If they separate nothing but dreams will remain for them."

Million Unpaid in Certificates

Many Participation Certificates Issued by Canadian Wheat Board Still Outstanding.

Winnipeg.—Approximately \$1,000,000 worth of participation certificates issued by the Canadian Wheat Board still are outstanding, although they should have been presented for payment by December 31, 1920, according to the Winnipeg Tribune.

Because the certificates have been allowed to lapse they are now invalid. Those who have not claimed the amounts coming to them on their certificates are said to be foreigners, who, it is declared, are suspicious of signing any government documents. In most cases the value of the certificates is not large but in one instance it amounts to \$500.

"Red" Agitation in Hamilton.

Hamilton, Ont.—It is said that the "Red" element here is trying to stir up men out of employment to make a demonstration in force.

At a meeting of unemployed, held in this city recently, extremists suggested the looting of stores by men out of work.

Secret service officials have been working in Hamilton as a result of the apparent attempt of certain agitators to cause an outbreak of lawlessness, and in consequence, a dozen of them have been ordered to leave the city under threat of imprisonment.

D'Annunzio Is Robbed.

Rome.—Several million lire in cash have been stolen from the office of Gabriele D'Annunzio at Fiume by Artelli, who forced the regency's strong box. Documents relating to D'Annunzio's enterprise were also stolen and the post-holder is considerably disturbed by the robbery. D'Annunzio is leaving Fiume for an unknown destination.

In the Halls of Learning

DR. W. W. SWANSON.

Dr. W. W. Swanson, Professor of Economics in the University of Saskatchewan.

Are for Disarmament

Prominent Canadians Express Their Opinion on World Disarmament Question.

New York.—Four big Canadians, asked for their opinion on an agreement for disarmament between England, United States and Japan, by the New York World, are direct in their statement that the three countries concerned should make special efforts to cut down the expenditures in this regard, as it would be painful to rebuild our civilization slowly, and it must be done, then to it sweep to nothing the rest of the world conflict.

Hon. W. L. Mackenzie King, Sir Vincent Meredith, Sir H. Montague Allen and Professor Leacock are the men who expressed identical opinions on the subject.

Samuel Gompers, president of the American Federation of Labor, says: "I am for disarmament."

Tail Twisting Senator

Member of U.S. House Would Cut Off British Oil Supply.

Washington.—Great Britain was accused of "emulating the Hun, in pursuing her post-war oil policy," by Senator Phelan, Democrat, California, speaking in the senate after Senator McKellar, Democrat, Tennessee, had advocated cutting off the British supply of oil. Phelan said that the interests of the United States were accorded equal rights with their subjects in the purchase and development of world oil supplies.

The California senator added to his accusation the charge that Great Britain at the same moment was appealing for United States aid during the war, declaring her "back to the wall," was buying up oil lands in other countries. With this charge, Senator Phelan concluded another, to the effect that Great Britain had obtained four billion dollars in loans from the United States and used her money in an endeavor to acquire a monopoly of the world oil supply.

Alberta Favors Increased Taxation.

Edmonton.—Twice the present maximum of taxation in municipal districts is favored by the Provincial Government as indicated in an answer given to the delegation from the Alberta Association of Municipal Districts. The limit of taxation is now one per cent of the assessed value, or one cent an acre where the levy is made on flat rate. It was asked by the delegation which waited upon the government, that this maximum of taxation be materially increased and a change to two per cent, and 20 cents was agreed upon.

Many Unqualified Teachers in Ontario.

Toronto.—Hon. R. H. Grant, minister of education, in referring to a published statement that there is a shortage of 2,000 teachers in Ontario at the present time, says that this figure was greatly exaggerated. "There are a number of vacancies throughout the province," he admitted, "but there are too many unqualified teachers in the province."

De Valera Is Busy Man.

Dublin.—The Associated Press correspondent has conversed with several persons who have seen and spoken with Eamon De Valera. He is reported to be in excellent health and is extremely busy, having already held several conferences with leaders of various departments of the Sinn Féin Government.

Alaska Pioneer Dead.

Dawson.—Emerson O'Neill, well-known pioneer Alaskan and Yukoner, died here recently. He came to Yukon in 1893, and Dawson five years later.

Rumors Are Heard Of Other Plans For Marketing of Wheat

Winnipeg.—The staff correspondent of the Manitoba Free Press at Ottawa sends the following dispatch for publication:

"The air down here is thick with rumors in regard to 'wheat pools,' the one proposed by the farmers being not the only one on the tapis by any means. One rumor is to the effect that someone has thrown a monkey wrench into the Farmers' scheme and that it is not making progress. Be that as it may, the rumors of additional schemes are interesting; indeed, one of them is known to have a basis in fact and that is the board of grain commissioners have definitely proposed to the government there could be no question of any of the lines of the Farmers' pool" be established as a department of the government and placed under the control of the commission.

"Of course, any scheme of this kind would have to be voluntary, so far as the Farmers are concerned, and it is a question of a department or section of a department under the government going out after contracts. It is understood the board of grain commissioners have even gone so far as to suggest as the head of this section of their department a former chairman of the board. It is generally believed here that the Premier, who is credited with personal leaning to a central selling agency, is far too shrewd to attempt any such scheme, linked up with a body so unpopular with both farmers and grain traders, as the board of grain commissioners; but on the other hand, that he might consider some scheme whereby a sort of harbor of refuge might be provided to enable farmers to secure advances on their wheat without glutting the market. This would probably be more in the nature of a grain bank, than a pool with this wide difference, that the farmers would be free to sell through this agency or not as they see fit. It would in effect mean the government would say to the Farmers: 'We will provide you with machinery and storage facilities whereby you can ship your wheat, secure an advance on it, and later we will sell to the best advantage and give you the balance after deducting cost of handling, but if you prefer to sell at once, direct to the trade go to it.'"

"Of course, even rumors of this nature are not discussed without the possible head for such a department of government being speculated upon, and down to there is only one man mentioned, and he, of course, is James Stewart, the late chairman of the Canadian Wheat Board, now defunct. Indeed, one man who is regarded as fairly well posted in government affairs, said the other day, 'If Farmers, through their regularly organized bodies, were to ask for a government department of this character, with James Stewart, and he alone to manage it, I believe they would get it, always provided the government could persuade Stewart to take it on.'"

"Another rumor here is to the effect that the Saskatchewan Provincial Government will make good fellows of themselves by furnishing a pool for the exclusive benefit of Saskatchewan farmers, and presumably this would be done through the existing machinery of the Saskatchewan Co-operative Elevator Company. The fact that Saskatchewan has something like 60 per cent of the wheat acreage of the middle west might account to some extent for this rumor, though, if newspaper reports are correct, the Hon. George Langley would feel quite equal to running a 'wheat pool' and the municipal affairs of that province at the same time and with one hand tied behind him at that. "Action on the suggestion of a wheat pool which may be taken at the annual convention of the provincially organized bodies of farmers in the west will be looked forward to with considerable interest down here."

Now Encircle World

Canadian Ships Have as Last Completed World-Girdling Plan.

Montreal.—Canada's ocean-carrying trade by the medium of the government ships has now encircled the globe. The last link in this world-girdling enterprise was forged with the departure of the steamship "Canadian Inventor" from Vancouver to Singapore and Calcutta, it is announced.

Hereafter the boats bound east from Montreal and St. John through the Suez Canal, will next the boats bound west from Vancouver at the terminal port of Calcutta.

Franco-Canadian Commercial Pact.

Ottawa.—When Sir Geo. Foster arrives back in Canada, it is expected that he will be able to announce some definite result of negotiations with the French Government looking to a new commercial treaty between Canada and France. Sir George sailed for Canada on December 31, by the Empress of Britain.

Turn Out Government Boats.

Vancouver.—The keels of two new government steamers, the Canadian Transporter and the Canadian Trader were laid at the Coughlan shipyards here recently. Seven hundred men are engaged in the yards.

Donald McMaster Ill.

London.—Sir Donald McMaster, the well-known Anglo-American member of parliament for Chertsey is seriously ill.

Elaborate Opening of Parliament Planned for Northern Ireland

Hope to Obtain Consent of the King or Prince of Wales to Attend.

London.—Ulstermen are preparing to make the opening of the parliament for Northern Ireland as picturesque and pompous as possible. Endeavoring to obtain the consent of the King to personally open the first session or to have the Prince of Wales do so if the King is unable to be present, says the London Times.

The newspaper adds that, starting the Ulster Parliament, is a fairly good prospect, as the opening of the new session will be met in Southern Ireland, for the two parliaments concurrently.

Long Journey to Arctic

Dog Teams With R.C.M.P. Will Leave Dawson City on 500-Mile Trip.

Dawson, Y.T.—Five pack Canadian Mounted Police dog teams drawing toboggans will leave Dawson this week on a thousand mile mid-winter Arctic Marathon. They will travel 500 miles directly north to Fort MacPherson, at the mouth of the Mackenzie river, and thence return.

They are expected back here about the first week of March and will likely bring first advices of the winter from Fort Norman oilfields and from Arctic explorers and whalers frozen in along the northern edge of the continent.

Several parties here are planning to go with dog teams over the snow to Fort Norman. The distance will necessitate 20 days' mushing.

Bandits Steal \$18,000.

Detroit, Mich.—Three armed bandits locked the manager and clerk of the west side branch of the Michigan State Bank of Detroit in the vault and escaped with \$18,000. The manager and clerk were imprisoned in the vault nearly two hours before their absence was noted and the robbery discovered.

Angus Shops Re-open.

Montreal.—The Canadian Pacific Railway Angus shops here, employing 530 men, which closed for twelve days' holiday just before Christmas have been re-opened under the same conditions as previously.

Coming to Opera House
Wednesday Next

There are more things in heaven, and
on earth than there are dreamt of, in
the philosophy, (Hercules) and after witness-
ing a performance of the Pull Bros.,
most baffling entertainers of all time,
one is compelled to exclaim, "Will wonder-
ers ever cease?"

The Pull Bros.' entertainment is
unlike the ordinary kind. Everything
is novel from beginning to ending and
comprises much that is weird, incompre-
hensible and marvellous to behold.

The mysteries and wonders of
theosophy and spiritualism which Prof.
Theo. Pull has spent years investigating
are brought home to the audience in
exploitation by him of many of the most
valuable discoveries and inventions.

Pull Bros. and their tremendous
mystery production will play at Blair-
more opera house on Wednesday next.
Admission 35c and \$1.00.

Railway passenger rates
throughout the Dominion were
reduced by ten per cent. on Janu-
ary the 1st. Freight rates came
down about five per cent.

Blairmore, Alta., Thurs., Jan. 13, 1921

Great Wealth Produced
By Western Provinces

Products of the soil produced in
the three prairie provinces in 1920
were of a total value of \$471,671,824.97,
an increase of \$67,732,911.70 over the
preceding year, according to statistics
compiled by the Manitoba Free Press. Figures on
grain are for the last four months
of the year, and all other figures
cover the full 12 months.

Grain increased from \$206,917,690.48 in 1919 to \$299,438,880.91 in 1920. Livestock decreased from \$65,284,948.00 in 1919 to \$51,225,176.15 in 1920 and the Free Press article states that this decrease was occasioned more by decreased numbers than by lower prices. Dairy returns are given as \$71,839,466.91 in 1920 and \$71,438,441.02 in 1919. Other items totalled \$49,167,800.00 in 1920 and \$56,783,513.00 in 1919.

Great Entertainer

Coming In New
Programme

Arrangements are complete for the appearance of Leslie Grossmith, the famous English musician and entertainer, on Thursday, January the 27th, at the Blairmore opera house.

The new programme is composed of a high class variety concert, an abridged version of the famous farcical comedy, "The Private Secretary," and with Leslie Grossmith as the Rev. Robert Spalding, and a select dance with special music.

Hugh S. Barbour, solo violinist, and Mlle. Georgette, in chic songs, are the assisting artists, and a genuine artistic treat is in store for us all. Will those interested in clean, wholesome entertainment for our town kindly try to keep this date as clear as possible from conflicting engagements.

Annual Meeting of
Alberta Red Cross

The annual meeting of the Alberta division of the Canadian Red Cross Society will be held in Edmonton on January the 21st and 22nd. The meeting will be opened by His Honor the Lieutenant-Governor in first Baptist church. The audited financial statement of the Society for the past year and reports of the executive officers will be presented to the meeting, and election of officers and executive for the ensuing year will take place. Important matters to be discussed at the sessions will be:

Development of Junior Red Cross as the basis of child welfare work.

Extension of membership, the obligation of every Canadian.

How Red Cross service may be best developed and applied to the needs of the local communities.

A Red Cross moving picture film, illustrating the activities of the Alberta division of the Red Cross, will be shown during the week.

Accommodating

Mistress (To new maid)—I forgot to tell you, Mary, that we have breakfast at eight o'clock sharp.

Maid—That's all right, mistress, if I ain't down on time, don't wait for me.

Blairmore carriers have at last defeated the Colmanites.

NOTICE

To Water Consumers

NOTICE IS HEREBY GIVEN that the Water Rates to Consumers in the Town of Blairmore will be increased on and after January the 15th, 1921. Copies of the new schedule will be distributed or may be had upon application at the Town Hall.

TOWN OF BLAIRMORE,
F. WRIGHT,
Secretary-Treasurer.

First Regular Meeting
of 1921 Council

The first regular meeting of the 1921 town council was held on Monday night, attended by the full council.

The minutes of previous meeting were read and approved, and no accounts were presented for consideration.

It was decided to hold a Bye-Election on Tuesday, January the 25th, for the purpose of electing a councillor to fill the vacancy caused through the resignation of councillor Dutil, and a by-law was passed appointing Frank Wright as returning officer for such election.

A table of committees was presented by the mayor for the council's consideration and was approved. Following are the committees:

Finance—J. E. Gillis, J. Montalbetti and E. Piccarriello.

Works and Property—J. Montalbetti, J. E. Gillis and W. McVey.

Fire and Light—J. A. McDonald, J. E. Gillis and J. Montalbetti.

Waterworks—E. Piccarriello, W. McVey and J. A. McDonald.

Health and Relief—W. McVey, E. Piccarriello and J. A. McDonald.

The first named in each case is chairman of committee.

License and Police committee appointment will take place after the bye-election.

Councillor Gillis gave notice that at the next meeting of the council he would introduce a by-law regulating the speed of motor vehicles within the Town of Blairmore. Also that he would at the same meeting introduce a by-law relating to assessment, with a view to the assessment of improvements for town purposes.

Councillor Montalbetti was appointed deputy mayor for the next ensuing three months.

Cards of Thanks

Mr. and Mrs. John Anderson desire to thank their many friends who so kindly assisted them in the hour of their bereavement, and for beautiful wreaths and other expressions of sympathy.

The parents of the late Mrs. O. B. Macdonald desire through The Enterprise to express their sincere gratitude to the many friends in Blairmore for kindness shown towards their deceased daughter, and particularly would they mention the local G.W.V.A., for their attention to the children.

Sudden Death
At Blairmore

A sudden death occurred in Blairmore on Sunday morning last, the victim being Dollie, adopted pet of Mr. and Mrs. A. Steiner of South Blairmore. Dollie was but in her teens and had been a faithful animal since her adoption by Mr. Steiner. She was broken to both saddle and harness and was far more gentle than the ordinary girl. One thing about Dollie, she had better manners than to twist her face or wink at the people when eating lunch. The remains were picked up from the roadside by a funeral carriage in charge of Undertaker Carter. Mr. Steiner's ambulance was in attendance. Carrying out the wishes of the deceased, the remains were cremated.

Revised Hockey Schedule

At a meeting of the executive of the Crows' Nest Hockey League, held in Macleod on Wednesday afternoon, the following was adopted as the balance of schedule for this season:

January 14—Taber at Macleod; Lethbridge at Coleman.
January 18—Taber at Coleman; Macleod at Lethbridge; Pincher at Blairmore.

January 21—Coleman at Macleod; Blairmore at Taber; Lethbridge at Pincher.

January 25—Taber at Lethbridge; Pincher at Macleod; Coleman at Blairmore.

January 28—Lethbridge at Taber; Blairmore at Pincher; Macleod at Coleman.

led at Coleman.

February 1—Pincher at Coleman; Macleod at Taber.

February 2—Blairmore at Lethbridge.

February 4—Coleman at Pincher; Lethbridge at Macleod; Taber at Blairmore.

February 8—Pincher at Taber; February 9—Blairmore at Macleod; Pincher at Lethbridge.

It was decided that the disputed game between Lethbridge and Coleman would be played off at Macleod on Wednesday next.

Stephen Piccarillo leaves this week to enter Upper Canada college at Toronto. He is being accompanied thither by his father, Countess Piccarillo (nee Knappe).

WANTED—To hear from owner of the best in town. Good and clean, well decorated. D. P. Bush, Manager, 1111 Main.

Validity of Liquor

Act is Upheld

EDMONTON, Alberta, Dec. 22.—In the grounds that Magistrate Macleod failed to decide according to the evidence submitted to him, Mr. Justice Hyndman, in a lengthy judgment handed down on Tuesday afternoon, quashed the conviction registered in the Alberta provincial police court against the Nat. Bell Liquors, Limited, as well as the order declaring the forfeiture of the liquor.

The company was fined \$200 and costs on October 21 for unlawfully keeping liquor for sale, and on November 1 the magistrate issued an order confiscating all the stored whiskey in the company's warehouses, valued at approximately \$50,000.

It is considered altogether unlikely that the valuable stock will revert immediately to the owners, as Sidney H. Woods, K. C., counsel for the attorney-general's department intimated during the course of the certification proceedings that if an unfavorable decision was given he would immediately carry an appeal to a higher court. Mr. Justice Hyndman will sit today to hear applications for an appeal.

ACT CONSTITUTIONAL

Of almost more interest than the judgment itself, is the lordship's stand on the question of the validity of the Alberta Liquor Act. Mr. Justice Hyndman takes a most decided stand and declares the act to be absolutely constitutional, in his opinion, thereby upsetting the surmises of those who had believed that the decision might be to declare the act ultra vires, with even a return to the open bar as a result, consequent upon the appellate division of the supreme court of Alberta having again given its opinion on the constitutionality of the Alberta Liquor Act.

"In the Gold Seal vs. Dominion Express Company case," states the judgment, "I stated that I was of the opinion that the Liquor Act is valid, and within the power of the provincial legislature. But I have no reasons, I am still of that opinion, notwithstanding the very able argument made by Mr. McNeil."—Calgary Herald.

Cowley Happenings

Miss Dorcas Elton is a visitor to Calgary now.

Mrs. Peel is visiting in Calgary for a few days.

A. C. Swart returned home from Winnipeg on Sunday.

Miss Drewry, of Glen Ranch, is a Calgary visitor at present.

Miss Wallace resumed her duties as teacher of the Lundbreck school on Monday.

Miss N. McWilliams resumed her duties as teacher of the junior room on Monday.

C. Frost and W. Knight, of Lundbreck, were Cowley business visitors on Monday.

Alvin Siler has returned to the farm, after a lengthy visit to his parents at Palouse, Wash.

Mr. and Mrs. Hetherington and Miss Carey spent several days in Calgary, returning Saturday last.

A number of local Masons motored to Pincher Creek on Wednesday evening to attend the Chapter.

The skating on the river being good, a large number from the village enjoyed themselves on Sunday afternoon.

A meeting to reorganize the local U. F. A. was held Saturday. A. J. Snyder was elected president and R. McMillan secretary.

Clifford Crawford, of Detroit, who has been visiting his brothers on the ranch for two weeks, has gone to his parents' home at Grand Forks, B. C.

The masquerade ball, held on the 7th under the auspices of the baseball club, was a decided success, there being a large number of markers and lots of amusement.

Prize winners were:

Best dressed gentleman—H. D. MacMillan as "Scotch Highlander."

Best dressed lady—Mrs. Bundy as "Martha Washington."

Best comic—George Ritten as "Old Dutch Olesener."

Best waltzer—Jack Walsh.

WANTED—To hear from owner of the best in town. Good and clean, well decorated. D. P. Bush, Manager, 1111 Main.

Annual Installation

Off. I. O. O. F. Officers

At the regular meeting of Bellevue Lodge No. 118 at Bellevue on Monday night, the officers for the ensuing term were duly installed by the D. D. G. M. Bro. W. J. Bartlett, of Blairmore, assisted by past grands—Peters, Crowder, Christie and Barlow. Following were the officers installed:

N. G.—B. Dryden
V. G.—F. Bradley
Secretary—A. Hallworth

R. S. N. G.—D. Curry
L. S. N. G.—I. Knowles
R. S. V. G.—J. Milnes
L. S. V. G.—J. Grammatica

Inside Guard—J. Christie
Outside Guard—G. Christie
Representatives to Grand Lodge

—James Cousens and A. Hallworth
Prior to the Oddfellows' meeting, a special meeting of Ray of Hope Rebekah Lodge was held for the purpose of installing officers, when the following officers were installed by D. D. G. P., Mrs. A. Morency, of Blairmore.

N. G.—Mrs. E. Bradley
V. G.—Mrs. Prescott
Sec. Secretary—Mrs. Hallworth
Financial Sec.—Bro. J. Cousens
Treasurer—Mrs. A. Goodwin
Chaplain—Mrs. Blake

Warden—Mrs. G. Christie
Conductor—Mrs. F. Padgett
Lodge Guardian—Mrs. E. Litherland

Outside Guardian—Bro. J. Christie.

R. S. N. G.—Mrs. B. Dryden
L. S. N. G.—Mrs. T. Knowles, Jr.
R. S. V. G.—Mrs. Patterson
L. S. V. G.—Mrs. Noble

Representative to Rebekah Assembly, Mrs. A. Hallworth.

During a social programme which followed the Oddfellows' meeting past noble grands' jewels were presented to Sisters Jepsen and Hallworth, of Ray of Hope Lodge, and a past grand's collar to Bro. James Cousens, of Bellevue Lodge No. 118. A programme of speeches and music occupied one hour, the chief item on the musical programme being a piano-trion bone duet by Mrs. T. Knowles and Miss G. Knowles. Musical selections were rendered by Mrs. Padgett, Mrs. Barlow, Mrs. Knowles, Miss Knowles and Miss Hallworth, while Messrs. Christie, Hallworth, Christie and others did honor to their vocal ability.

(Continued)

Smythe shouldered and reached for his cap. He walked slowly from the room and climbed into his saddle. The Colonel watched him take the trail, then, his duty as a host done, he turned into the house with an expression of disgust.

Once Smythe had rounded the clump of bushes, he slashed the sleepy, over-fed mare into a gallop, which was not slackened until he was many miles down the trail. Then he dipped into a hollow, reined up, and whistled softly. Watson came among the trees leading a bay horse by the bridle-rein. He glanced at Smythe's face and his own darkened. "I told you he wouldn't believe you," he flamed. "What did he say?" Smythe leaned forward in the saddle.

"My friend," he answered, "told Watson I hope to see him before he dies."

Watson did not reply. He sprang into the saddle and the two rode for a mile or two in silence. Then Smythe remarked:

"Hallab's schooner left for Round Bay today. I think, Ann, when Broadrock will not allow me to lose the wager he believes I made with the dear Colonel. He is waiting for the vessel to drop anchor."

"Then you think the schooner will burn?"

"If I read Ann aright—well, yes, I do. Although, let us hope not; let us hope not."

"Then, when will we kidnap the wood-nymph?" asked Watson. "She must be got rid of, for Simpson threatens to undo our little plans if we fail him, you know."

"Yes, I know, answered Smythe. "Well, we'll not disappoint Simpson. Three people there are who must be made American citizens soon, and stay American citizens: Old Noah, Simpson, and —"

He checked his tongue and Watson looked with some sort of admiration at his friend.

"Smythe, you're a great man," he asserted.

Smythe raised his weak eyes toward the lowering skies.

"God knows," he sighed. "God knows best, my friend. I try to do my little part well. 'Tis all that I can do."

A little further on Watson broke the oppressive silence again. "When will we do it, then?"

"Say Saturday night," directed Smythe quietly. "Poor little girl! But it must be; it has to be, my friend."

"You are a great man," flattered Watson. "You deserve success, Smythe. I hope you will win Ross and her snug bit of land. And I hope after the Bushwhackers are convinced that Hallab won't betray their queen as a hostage, they will realize that they need you and me as custodians of their desires."

He laughed over his shoulder, and Smythe, digging his spurs into his old white mare, trotted up alongside him.

"Courting was always an unsatisfactory game with me," he said, "and in the case of widow Ross it has been no exception. I find she is a selfish woman. I found her a heathen and I showed her the light."

"And she showed you the door, eh?"

"Not so fast, my friend," smiled Smythe. "She did not. It was that boy of hers who spoiled my visits. That boy played a mean trick on me the last time I visited the widow. I have not been back since."

"Tell me about it," said Watson.

"Not now," Smythe shook his head. "Later, perhaps, but not now. Let us each earnestly review our plans for Saturday night, my friend, and for our own personal safety, as well as for business motives, think out a line of action."

Watson shuddered back into his saddle.

"I wish to God it was over," he muttered.

A GREAT STOMACH BRACER

Makes You Feel Lively and Young—Removes That Tired Feeling.

At some period in our lives there is sure to come a time when the stomach is "off"—not working well—falling to enjoy and digest its food. Main thing then is to get the right remedy. You really want a soothing medicine, one quick to act, sure on results, combining the virtues of a gentle laxative with a tonic effect upon the stomach, liver and kidneys.

Certainly the world affords no better medicines for the stomach than Dr. Hamilton's Pills of Mandrake and Bitterroot. Their laxative effect is ideal—can't be beaten! But in addition to their helpful action upon the bowels, these pills contain certain ingredients that strengthen and invigorate the muscles of the stomach—thereby relieving all sorts of stomach misery, indigestion, sourness, gas, headache and biliousness. Just try Dr. Hamilton's Pills—they'll make you feel every morning with a snap; they bring and maintain robust, sound, vigorous health, and that's just what you've looked for these many months? REFUSE A SUBSTITUTE FOR DR. HAMILTON'S PILLS. 25c per box at dealers.

He struck his horse with the quirt and it bounded forward, leaving the rest of the crowd astounded.

It was quite agreeable to that gentleman to be left to himself. When he reached the edge of the town he reined up—and gazed southward through the trees, half twilight.

Miles away sounded the deep note of a steam whistle.

"That's the old passenger," mused Smythe. "I wonder if the widow is waiting and watching for me? I wonder what she is doing now?"

CHAPTER XXI

Widow Ross Backslashed. Just at that particular moment the widow was frying the potatoes for supper. She was singing, and snapping the words out just what you might expect to hear from a woman of her kind.

"The woman gave the brownings potatoes a stir with the knife and glared at the cat creep across and stalked close range to Tommy."

"I tell you I don't know," whispered the woman, "I'm making a kick at the cat. Get out, you moon-eyed beggar—you want to know all about everything?"

The woman gave the brownings potatoes a stir with the knife and glared at the cat creep across and stalked close range to Tommy."

"I tell you I don't know," whispered the woman, "I'm making a kick at the cat. Get out, you moon-eyed beggar—you want to know all about everything?"

The woman gave the brownings potatoes a stir with the knife and glared at the cat creep across and stalked close range to Tommy."

made all people eat funny. When Mary Ann came in with a big basket of hickory nuts, gathered from the ridges, her mother glared at her and frowned. She watched the girl swing the heavy basket to a shelf on the wall, and a gleam of mischief sprang at her face. Tommy, the fire-brick concealed beneath his home-tanned jacket edged toward the door.

"See the cat as you was comin' in, Mary Ann?" he asked earnestly.

His sister laughed and grabbed him. "No, you don't, sonny," she said. "I know what you want to do with Sarah. My, but you are a wicked imp, Tommy."

"Imp is a swear-word," charged the widow. "I'm surprised at you, my son."

"Why, ma," exclaimed the girl, "you're gettin' awful pious, ain't you?"

"My Smythe would say that 'imp' is a swear-word," said Mrs. Ross, "and Mr. Smythe is the best Christian in Blairmore."

"Did he tell you he was?" asked the girl.

He did. Says he, Mrs. Ross, I'm a godly man. I try to do right, and I love my neighbor."

(To be continued)

More Paper Mills

Hugh Sums Being Invested In New Concerns to be Established.

The Provincial Paper Mills, Limited, announces that having secured a pulpwood limit of 1,220 square miles well timbered in the Nipigon district in Northern Ontario, it will go ahead at once with the construction of a paper mill and an addition to its pulp mill, which has now a capacity of fifty tons per day.

Finances for the new undertaking have been arranged by the authorization of an issue of three million dollars of bonds.

It is understood, is about the amount of expenditure the construction will entail.

Almost simultaneously John Sturtevant and Sons, who procured the big plant of the Port Arthur Wagon Company, announces that Chicago capitalists have financed a pulp mill of one hundred tons per day capacity and that establishment of this industry will commence without delay.

The Kamistiquia Pulp and Paper Company is issuing bonds to finance an increase in the capacity of its plant from twenty-five to one hundred tons per day. These three industries will make Port Arthur one of the biggest pulp and paper centres in the Dominion.

American engineers said to be representing financial interests of Chicago, New York and Buffalo, are also investigating the pulp manufacturing possibilities of British Columbia, with the object of investing from \$80,000 to \$100,000 in the pulp industry in the province. The investment would involve the taking over of the plant of the Beaver Cove Lumber and Pulp Company, Limited, together with the timber holdings of the company.

White Birch, White Birch, White Birch, Michigan, which in the aggregate total five billion feet of the finest stumpage in the province.

WHEN RHEUMATISM HITS YOU HARD!

Sloan's Liniment should be kept handy for aches and pains

WHY wait for a severe pain, an ache, a rheumatic twinge following exposure, a sore muscle, sciatica, or lumbago to make you quit work, when you should have Sloan's Liniment handy to help curb it and keep you active, and fit, and on the job?

Without rubbing, if you perspire, apply a bit today to the affected parts. Note the gratifying, clean, prompt relief that follows. Sloan's Liniment couldn't keep its many thousands of friends the world over if it didn't make good. That's a worth remembering. All druggists—three sizes—the largest is the most economical. 35c, 70c, \$1.40.

(Made in Canada)

Sloan's Liniment

Range Ewe Has Record

Has Made a Net Profit For Her Owner of \$192.25.

Among the livestock exhibits accompanying the Beaver Farming train that is touring Saskatchewan, is a very ordinary looking range ewe, with a very extraordinary record, according to J. G. Robertson, livestock commissioner of the province.

"The only interest she might excite is perhaps a feeling of wonder how such an animal came to be included in the exhibit at all," he told a reporter.

At the rear of her pen, however, is a placard which gives the reason and shows that if all livestock did as much for their owners as this old ewe, there would be very little necessity for any campaign to attract people "back to the land."

The record shows that in seven years, during which this ewe was invariably bred to a pure bred ram, she gave returns as follows:

1914, two wethers, sold in 1914 for \$30; 1915, two wethers, sold in 1915 for \$30; 1916, two two-shear, sold in 1916 for \$60; 1917, two two-shear, valued in 1920 at \$60; 1918, one two-shear and lamb, which landed in 1920, valued at \$40; 1919, one one-shear wether, valued at \$30; 1920, one wether lamb, \$10.

In the seven years, therefore, this ewe presented her owner with twelve lambs, valued at \$275. In addition there were seventeen fleeces, valued at \$83.60, making a total return of \$358.60. The original cost of the ewe was \$47.50, and maintenance has been conservatively estimated at \$159.60, so that she has made a net profit for her owner of more than \$192.25.

Germans Surrender Arms

Marshal Foch Submits Report On Progress of Disarmament

Marshal Foch's report on Germany's disarmament, according to the Paris Times, says that the Germans have surrendered 41,000 cannon, 29,000 unmounted cannon barrels, 16,000 machine guns and barrels, 20,000 rifles, 16,000 airplanes and 25,000 airplane motors.

German delinquencies in executing disarmament clauses of treaty and Spa agreement, are said to be principally the maintenance of "civilians" in Bavaria and Eastern Prussia, the organization of security police, and failure to destroy the required amount of artillery in the eastern and southern frontier fortresses.

The report recites the details of the German request that they be allowed to retain 841 cannon in the fortresses, but the allies have approved the retention of only 20 guns at Koenigsberg and 32 at Swinemunde.

A Bead Making Country.

A much-discussed country, Czechoslovakia, is the centre of the glass bead industry. The peasants are for the most part engaged in sorting, grading and stringing all kinds of beads, which are manufactured in enormous quantities in every imaginable color and size. The beads are strung on threads by the children.

The prong-horned antelope is found only in North America.

Lace Tree.
The lace-bark tree provides the women of Jamaica with ready-made lace, from which caps, bonnets, and nets are made. The inner bark of the tree is soaked in water and divided into separate layers. Each layer is stretched and spread in the sun. The application of water bleaches the lace. A tree that flourishes in the South Sea Islands produces fruit which, as a food, resembles very closely a newly-baked loaf. On account of this it is known as the bread tree.

Recommended by Their Record.
The very best advertising which is done for Parment's Vegetable Pills is that done voluntarily by those who have experienced the benefits of this. Throughout Canada, many thousands of people recommend Parment's Vegetable Pills to their friends as one of the most reliable of all medicines for correcting disorders of the stomach, liver and bowels. To this fact is very largely attributed the enormous sale they enjoy everywhere.

The technological institute at Tomsk is the only higher institution of learning in all Siberia.

"I Cannot Go"

BILIOUS headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.

Constipation, indigestion, backache, headache, biliousness and kidney derangements soon disappear with the use of this well-known medicine.

One pill a day, 25 cts. a box, all dealers, on Remittance, Name & Co., Ltd., Toronto.

NEW DIRECTORS OF THE BANK OF MONTREAL

SIR LOMER GOUIN.

The enlargement of the directorate of the Bank of Montreal, which was decided upon at the recent annual meeting as a result of the extending scope of the institution, has resulted in two gentlemen of national reputation being added to the board, namely, the Hon. Sir Lomer Gouin, K.C.M.G., and General Sir Arthur Currie, G.C.M.G., K.C.B., LL.D.

Sir Lomer Gouin only recently retired from the position of Premier of the province of Quebec. He had held this position for fifteen years. He was born at Grandpré on March 19, 1862, his father being M. Gouin, M.P., a well-known local practitioner. His mother's maiden name was Farigier. He was called to the Bar in 1884 and advanced rapidly in his profession.

In the intervals of a busy professional career, he found time to contribute to the legal literature of the province of Quebec two valuable volumes which are regarded as standard authorities. The first of these was a book on the Quebec Municipal Code, with annotations; the second work on commercial partnership and joint stock companies.

He was appointed an officer of the Legion of Honor in 1907, and was knighted at the Quebec Tercentenary on the occasion of the visit of the Prince of Wales, now King George VI. He was present by invitation at the Coronation of King George and Queen Mary in Westminster Abbey in June, 1911.

Sir Arthur Currie, who achieved fame as the Commander of the Canadian Corps in France during the latter part of the war, is now the principal of McGill University. He was born in Napperton, Ontario, on December 31, 1875. When a lad of eighteen he went to British Columbia and there, till he found his way to more remunerative occupations, he taught school for several terms. Educated at the Strathroy Collegiate In-

stitute in Ontario, he found the thorough training he received of inestimable value in the business life he afterwards took up.

When the war broke out he at once offered his services to his country. He was an unranked lieutenant-colonel but his work was speedily recognized at Valcartier when raw material was being welded into fighting men, and he shortly found himself in command of the 2nd Brigade. In the famous second battle of Ypres, when there fell to the Canadian troops the honor of saving the entire British line, Brigadier-General Currie first showed the world of what fighting stuff he was made. To stiffen a fighting line against deadly odds was his task that day. The Canadians had to meet at Ypres that first terrible surprise gas attack. The men had no gas masks, of course. The forced retreat of the French had left the Canadian flank unprotected and exposed. But it was a case of saving the Channel ports, and the Dominion troops held their ground. When General Alderson was promoted from the First Canadian Division to the command of the Canadian Corps in September, 1915, Major-General Currie succeeded to the command of the First Canadian Division. His success in this position was recognized by the fact that in the King's birthday honors of June, 1917, the name of Major-General Currie figured as one upon whom His Majesty had been pleased to confer the K.C.M.G. Later in the same month Sir Arthur Currie succeeded Sir Julian Byng as commander of the Canadian Corps.

On the day following his appointment at McGill he was given a public banquet by the officers who served under him in France, and was presented with a handsome sword of honor and an illuminated address "a token of their regard and deep admiration for his magnificent services to Canada and the Empire in the Great War."

Ontario's Population

Statistics Show That Population Now Nears Three Millions.

Statistics for the province of Ontario estimate the population for 1919 as 2,837,425, an increase of 1.4 per cent. over that for the preceding year. The cities have 39 per cent. of the towns 5.2 per cent. and the rural municipalities 55.7 per cent. of the population. The Ontario births showed a decrease of 1955, even though numbering 62,774. There were nearly 6,000 more female than male births.

The number of deaths registered in 1919 was 44,000 which is 1.9 per cent. below the preceding year. The ratio per 1,000 population has fallen from 15.3 in 1918 to 11.9 in 1919 for Ontario.

Minard's Liniment For Diphtheria.

Keeping Road Open.

The Hamilton-Toronto highway commission, which controls the beautiful stretch of road, one of Ontario's finest drives, has tried out motor snowplows to clear the roads. A moderate sized plow is attached to the front of a powerful truck with good results. Motorists will use the road all winter.

\$100 Reward, \$100

Catarrh is a local disease greatly increased by constitutional conditions. If there are no serious constitutional conditions, HALL'S CATARRH MEDICINE is taken internally and acts through the mucous surface of the system. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. \$100.00 reward for each case of Catarrh that HALL'S CATARRH MEDICINE fails to cure. Douglas J. Hall, Tontitongh Falls, N.Y. or J. C. Chesser & Co., Toledo, Ohio.

Many a man is compelled to take married life according to directions.

There are over a hundred varieties of holly.

Healthy Business Conditions

Bank Clearings In Alberta Show Steady Increase.

Business conditions in Alberta during 1920 are reflected in the bank clearing returns of the two leading cities—Calgary and Edmonton. Each shows a substantial increase in these figures over those of the preceding year. In Calgary it is more than \$83,000,000, the total clearings for the year amounting to 438,073,227 against \$355,011,589 in 1919; while in Edmonton the gain is \$62,000,000, the year's clearings aggregating \$295,273,849 as compared with \$233,066,784 for the previous year. Every year these returns show a steady advance. This year it has been maintained despite a lowering of the price of farm produce.

Excise Revenue Jumps

Increase Largely Due to Income From the War Tax Stamps.

An increase of nearly \$8,000,000 in the excise revenue of the Dominion, exclusive of the war tax collected by the Department of Inland Revenue for the month of November is shown in the official revenue statement for that department just issued. The increase was due almost wholly to the larger revenue derived from war tax stamps, the sum accruing from this source being slightly under ten million dollars. Excise tax collections on tobacco for the month yielded \$2,601,353, while the amount brought in by the tax on spirits was \$474,144. Other collections brought the purely excise revenue for November up to \$13,423,451.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

The Best Accident Insurance

—the one adopted generally in Canadian homes, is the policy of keeping Zam-Buk always handy. Zam-Buk ensures quick healing in cuts, burns, scalds, colds, sores, all injuries and skin troubles. It promptly ends pain, irritation and inflammation; it prevents infection; prevents blood poisoning and all other ailments. It is a ready, reliable character and powerful antiseptic properties make Zam-Buk the safest and best healer ever discovered.

Miss Belle Grant, Brazil Lake, N.S., says:—"Cold got into my burnt hand, and I began to fear blood-poisoning. I hadn't used Zam-Buk long before it took out all pain, soreness and inflammation."

Mr. Jacobus Thibault, of Delta, Alta., writes:—"With the threatening cold last fall, many little accident happened, cuts, bruises, frost bites, etc., for which we found nothing so good as Zam-Buk. It was absolutely reliable. It healed cuts, sores, winter extremities, skin troubles, etc. It was a real life-saver. It is a safe, reliable, first-aid remedy for all accidents. It is a safe, reliable, first-aid remedy for all accidents. It is a safe, reliable, first-aid remedy for all accidents."

Wells of Abraham

Modern Pumping Machinery Now Used in Well Dug by Abraham.

Abraham's wells are now equipped with modern pumping machinery and are supplying water to the town. According to ancient tradition, there were seven wells at Beersheba, but at present only three are known, which form a line immemorial have been used by the Bedonko to water their flocks. The original "Well of the Oath" was dug by Abraham, as described in the Book of Genesis.

End Your CATARRH To-Day

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be relieved right away by inhaling "Catarrhoseon." In using Catarrhoseon you don't take medicine into the stomach—you just breathe in the steamy vapor that takes to the lungs and air passages. The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, food secretions are destroyed, nature is given a chance and relief comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhoseon is breathed over a hoarse, coughing throat at once, because irritation is removed.

Use Catarrhoseon to prevent—use it to relieve your winter ills—it's pleasant, safe and guaranteed in every case.

Had His Ups and Downs

K.C.'s Last Job Was Running a Freight Elevator.

Running a freight elevator in a Vancouver office building was the last job held by John Reeves, K.C., who died recently. The late Mr. Reeves, once a leader at the Ontario bar, member of an old Upper Canadian family, was born sixty-nine years ago. He was a life-long friend of the Chief Justice Falconbridge and an associate of the late Sir William Mulock. He was associated one way or another with most of the big men Ontario produced since Confederation. In his little room, near the elevator, Mr. Reeves used to entertain, between shifts, members of the provincial judiciary and other leading legal lights.

To equippers Mr. Reeves always said: "Hard luck is likely to come to anyone. My lot is not a difficult one."

Lost his money in a venture in New Zealand, he stated, "and I am too old to go back to practice and start at the bottom again. I enjoy work and this elevator suits me."

The land crab of Cuba has more speed than the horse.

It's no trouble for a man to brag of his good judgment when he makes a good guess.

WELL SATISFIED WITH BABY'S OWN TABLETS

Mrs. Emile Malette, Montpelier, Que., writes:—"I have used Baby's Own Tablets for some time and am well satisfied with them. They are surely the best medicine I know of for little ones. What Mrs. Malette says thousands of other mothers say. Once they have used the Tablets for their children they will be satisfied. The Tablets are a mild but thorough laxative; are absolutely free from opiates, narcotics or other harmful drugs and may be given to the youngest baby with perfect safety and good results. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Queer Facts About Plants.

"When plants die they give off a large amount of electricity. If 500 peas boiling in a pot all died at the same moment they would give a current sufficient to electrify the cook," said Sir J. C. Bose in a lecture on growth of plants to the students of University College, London, recently. You can decide a lilac plant with chlorophyll, he said. Usually it sleeps in winter and blossoms in the spring, but if given a dose of chlorophyll in winter it blossoms on awakening from the chlorophyll sleep.

Says Conditions Will Improve.

In a message to the Vancouver World, J. S. McKinnon, Toronto, of the Canadian Manufacturers' Association, said that if Canadians stand shoulder to shoulder—as they did in the war, and maintain an optimistic outlook, present trade conditions will materially improve during the next few months.

It takes a joint of beef to make a Bottle of Bovril.

German Commander's New Year Message

Hopes New Army Will Rival Old One in Efficiency.

In his New Year's message to the army, Major-General Von Seeckt, the German commander-in-chief, refers to the necessity of the soldiers devoting themselves wholly to their calling. "We will keep our sword sharp and our shield unarmoured," says the message. "Inspired by such a true conception of honor and of patriotism and by this feeling of responsibility the new army will be able to rival the old one in efficiency."

Bar Movies of Criminals.

Motion pictures portraying criminals at work have been banned in Chicago. Chief of Police Fitzmorris announced that three weeks ago he had issued orders to movie censors not to issue permits for any photoplay that showed a crime committed, even though the end of the picture might show the criminal in a prison cell.

Asthma In Torture.

No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Many do know, however, from experience how unmanageable is the relief provided by that preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been telling the most severe cases. "If you are a sufferer do not delay a day in securing this remedy from your druggist."

The wrongs of our people are continually getting mixed up with our rights.
